ImmiAccount – How to update your application passport details

Version: 2 (4-6-2015)

If your passport details change after you have submitted an application, you must update these details in the application.

This guide describes how to use an online form to update your passport number, date of issue, date of expiry, and issue authority/place. The online form will not allow you to update your name or country of passport.

Please note, you will be required to complete a 929 form in the following circumstances:

- Your passport is lost or stolen.
- You wish to update your name or country of passport.
- An online form to update passport details is not available for your visa subclass.

This guide explains the steps for updating your passport details in ImmiAccount for a submitted application.

Login to your **ImmiAccount**.

For information on how to login to your **ImmiAccount**, refer to the **How to login to ImmiAccount** Quick Reference Guide.
